Rights and Protection of Women and Children

The Maison d'Accueil Femmes Plus (MAF+) Les Béatitudes is a social and educational institution. It welcomes and helps children and women in difficult situations (orphans, abused, found, street children, . gender-based violence...) they are temporarily placed in the center.

For the year 2023, we have welcomed through the police, justice and the Ministry of Women, Family and Children, 113 cases of gender-based violence including 11 girls rescued from forced prostitution, 2 cases of marital problems, 7 children found in the streets, a mentally ill woman and her one-week-old baby and 4 orphans for a short period of time while the competent authorities find the parents or resolve their problems. We are prohibited from publishing the images as this is part of their protection.

DONATIONS AND ASSISTANCE TO POOR AND DISADVANTAGED PEOPLE

In this program, we have provided assistance throughout the year 2023:

Every month, 10 widows come to take a 5 kg bag of rice each, they are selected on the basis of advanced age and inability to do an income-generating activity. Those who carry out a commercial activity, we have facilitated the granting of microfinance loans for 17 women. Thanks to our intervention, 09 women received COVID aid.

FINANCES AND OPERATIONS

Femmes Plus funds come mainly from financial donations from Mac Purcell and Tanya, Christopher and Guiro Jean Claude and the sale of clothing. Through Mac Purcell and Christopher, we also received donations from other Rotary groups. We spend around 250,000 cfa (381 €) per month distributed as follows:

- Office Rental 80,000 CFA (122 €)
- Water and electricity bill 40,000 CFA (61 €)
- Budget for the reception center and assistance to needy people: 75,000 CFA (114 €)
- Headquarters expenses 50,000 CFA (76 €)

The needs are enormous but we work with what we receive. If there is more, we will do better
